CONSENT FOR TREATMENT: I, the undersigned, request and authorize **Baylor Medical Center at Uptown**, and all its physicians, surgeons, technicians, nurses, and other qualified personnel, whether employed directly by the hospital or brought in on a consulting basis, to provide any medical/surgical treatment, diagnostic tests and hospital care which the attending physician or designee(s) may deem necessary or beneficial for my health. Initial

FINANCIAL AGREEMENT: We wish to stress that the financial responsibility for services rendered rests with the patient and his/her family, regardless of any insurance coverage. Your insurance policy is a contract between you and your insurance company. We cannot guarantee payment of your claim. If it is not paid, the insurance company should explain to you why it was rejected. Most of the time our fees fall within their "usual and customary" guidelines, however, the responsibility for the balance of this account falls on you. Initial

ASSIGNMENT OF INSURANCE BENEFITS: I hereby authorize payment directly to **Baylor Medical Center at Uptown** and any physicians, including, but not limited to ER physicians, radiologists, etc. of the insurance benefits specified and otherwise payable to me, but not to exceed the Hospital's regular charges for these services. Initial

RELEASE OF INFORMATION: I authorize **Baylor Medical Center at Uptown** and any physicians involved in my care to release medical information and supporting documentation of same as compiled in my medical records during this emergency department visit to any organization which is, or may be liable or responsible for payment of charges associated with my care, and for all other purposes of benefit payment. If my injury is work-related, I authorize **Baylor Medical Center at Uptown** to release any information from my medical records to my employer and/or its designee. Initial

PHYSICIANS SERVICES: Emergency Department physicians, radiologists, pathologists, surgeons, etc. are independent contractors, and are not employees of **Baylor Medical Center at Uptown**. Physicians' services are billed separately. Initial

PERSONAL ITEMS and MEDICATIONS: I understand that **Baylor Medical Center at Uptown** is not responsible for lost or stolen personal or valuable items or medications. Initial

PATIENT RIGHTS: I have received a copy of the **PRIVACY NOTICE, PATIENT RIGHTS and GRIEVANCE POLICY**. Initial

SENSORY OR PHYSICAL IMPAIRMENTS: I understand **Baylor Medical Center at Uptown** has resources to meet most special needs for patients with sensory or physical impairments. I do / do not have special needs. Initial

Access to Health Records Online

If you would like to have access to your records for this radiology visit online, please provide your email address below. You should receive an email invitation to join **myHealth** from **United Surgical Partners** [\[mailto:noreply@iqhealth.com\]](mailto:noreply@iqhealth.com) Please check your SPAM folder if you don't find it in your inbox.

Patient Satisfaction Survey

We would like you to have a voice in our quality improvement. With your permission, we will email you a survey to allow you to give us feedback about your experience as a patient at **Baylor Medical Center at Uptown**. Your email address will be kept confidential, and not used for any other purpose.

Please enter your email address here:

Disclosure of Physician Ownership

Baylor Medical Center at Uptown meets the Federal definition of a physician-owned hospital, and a list of the hospital's owners that are physicians (or their immediate family members) is available upon request. Radiologists are independent contractors, not owners or employees of **Baylor Medical Center at Uptown**.

Baylor Medical Center at Uptown is committed to providing clinical excellence in a safe, attractive environment for you and your family members. We are proud that many of the physicians who practice here have chosen to have ownership in this hospital. Their ownership enables them to have a voice in the administration and policies of our hospital. This involvement helps to ensure the highest quality of care for you.

If you have any questions concerning this notice, please feel free to ask your physician or the Chief Executive Officer at **Baylor Medical Center at Uptown**.

Informed Consent for MRI Scan With or Without Contrast Injection

PATIENT'S NAME: _____ MEDICAL RECORD NUMBER: _____

To the patient: You have the right, as a patient, to be informed about your condition and the recommended surgical, medical or diagnostic procedure to be used so that you may make the decision whether or not to undergo the procedure after knowing the risks and hazards involved. This disclosure is an effort to make you better informed so you may give or withhold your consent to the procedure.

Inform center personnel at once if you are pregnant, or think you may be pregnant.

Inform the technologist if you have heart valves, a pacemaker, aneurysm clips or other implanted metallic or electrical devices.

CONSENT TO IMAGING PROCEDURE: Your attending physician believes it beneficial for you to undergo a diagnostic imaging procedure known as Magnetic Resonance Imaging (MRI) to aid in diagnosing and treating your medical condition. MRI does not use x-rays or radiation. Instead a magnetic field and radio waves are used to create an image of internal body structures. MRI is a painless procedure that requires that you lie still on a padded table that gently glides you into the magnet. As part of your MRI exam, a contrast agent may be injected into your vein in order to produce better images of the part of your body that is being examined. The MRI procedure may be conducted without the injection of the contrast agent, but the images may not be as helpful to the radiologist and your physician. If you wish to refuse the contrast injection, inform the technologist and the MRI will be conducted without the contrast agent.

POTENTIAL RISKS: The following complications are possible anytime an injection is given: potential for pain, bleeding, bruising or swelling at the injection site. MRI exams requiring contrast may result in a mild headache, nausea, itching or other vague symptoms for a short time after the injection. Additional allergic reactions in response to the contrast agent may include hives, shortness of breath or difficulty swallowing. There have been rare instances of death after the administration of the contrast agent. It is very important to inform the technologist if you experience any of the conditions mentioned in this form.

NOTE TO PATIENTS: If you previously had a reaction to a contrast injection such as hives, severe itching, shortness of breath and/or any significant reaction requiring hospitalization, a history of asthma, or other allergic conditions, any history of anemia, sickle cell anemia, or kidney disorder, are pregnant or breast feeding you must inform the technologist. The safety of contrast for children under the age of two has not been established.

PATIENT SIGNATURE: I certify this form has been fully explained to me, that I have read it or have had it read to me, that the blank spaces have been filled in, and that I understand its contents. I have been given an opportunity to ask questions about my condition, alternative forms of treatment, risks of non-treatment, the procedures to be used, and the risks and hazards involved and I believe that I have sufficient information to give this informed consent.

I understand that the physicians participating in my care at BMC@U are not employees or agents of Baylor Medical Center at Uptown Hospital. They are either independent physicians engaged in the private practice of medicine or are licensed physicians participating in the care of patients as part of a post-graduate medical education program. Physicians who may participate in my care in addition to my attending physician include, but are not limited to radiologists, pathologists, anesthesiologists, neonatologists, cardiologists, pulmonologists, gastroenterologists and nephrologists. The physicians participating in my care may or may not be financial partners at Baylor Medical Center at Uptown.
